PROFESSIONAL SUMMARY

Dynamic and results-driven **Team Lead and Full Stack Developer** with over 5 years of hands-on experience architecturalizing, building, and deploying robust enterprise web and mobile applications. Competent across the entire software development lifecycle, from client requirement gathering and technical feasibility assessments to deployment pipelines. Proven track record of leading development teams, managing strict timelines, and engineering high-quality, scalable code utilizing modern JavaScript/TypeScript ecosystems.

CORE SKILLS

Frontend:	JavaScript, TypeScript, Angular, React, Next.js, Material UI
Backend:	Node.js, Express.js, NestJS, GraphQL API, REST APIs
Databases & ORMs:	SQL (MySQL, PostgreSQL), NoSQL (MongoDB), Prisma ORM, TypeORM, IndexedDB
DevOps & Tools:	AWS, Nginx, Docker, Git, GitHub, GitLab, NPM, VS Code

PROFESSIONAL EXPERIENCE

Biizline <i>Team Lead & Full Stack Developer</i>	Ahmedabad, India <i>April 2024 – Present</i>
- Architected and deployed a highly scalable digital B2B platform connecting companies, vendors, and customers within a single unified ecosystem. - Streamlined operations by developing automated workflows for product tracking, order management, payment processing, and subscription structures. - Implemented real-time data-driven insights and notification systems across platforms to boost operational transparency and minimize overhead.	
Lanatus Systems <i>Full Stack Developer</i>	Ahmedabad, India <i>November 2023 – January 2024</i>
- Engineered clean, reusable, and modular components for enterprise web applications leveraging modern frontend frameworks and backend infrastructure. - Collaborated closely with stakeholders to translate complex requirements into technical design patterns and reliable software solutions.	
7Seasol <i>Software Engineer</i>	Surat, India <i>May 2021 – September 2023</i>
- Developed client-facing web applications focusing on optimal site performance, maintainability, and clean UI/UX rendering. - Conducted feasibility studies and risk assessments on complex feature updates to ensure seamless integration and timely production deployments.	

TECHNICAL PROJECTS

1. Biizline (B2B Order Management Software)

An enterprise-grade B2B digital platform automating workflows between businesses, vendors, and clients. Formulated seamless web dashboards with payment modules, live alerts, and real-time operational analytics.

Technologies: React.js, Node.js (NestJS + Express.js), REST APIs, SQL DB

2. Group Shop (European E-Commerce Platform)

A feature-rich retail platform modeled after modern e-commerce giants, serving the European market. Engineered high-performance components supporting time-locked features ("Daily/Weekly Drops") and integrated backend with Shopify API.

Technologies: Next.js, Node.js (NestJS), GraphQL API, MongoDB, Shopify API

3. TruBlu Platforms (Direct & Plan for Health)

An industry-leading dental practice management and membership billing ecosystem. Engineered comprehensive reporting dashboards, secure healthcare records, and third-party payment gateways for subscription health benefits.

Technologies: ReactJS, NodeJS, Prisma ORM, Apollo GraphQL, PostgreSQL

4. MedInsight Pro (Medical Survey & Analytics)

A strategic survey and analytical software for tracking pandemic trends. Integrated World Health Organization (WHO) APIs to stream live data feeds, building dynamic visualizations utilizing AG Charts with responsive filtering layers.

Technologies: Angular, AG Charts, REST APIs

5. Coyna (Financial Management Software)

A full-scale asset tracking and working liabilities system. Designed interactive, data-dense financial dashboards using ApexCharts to visually isolate revenue variance, account receivables, and real-time profitability matrices.

Technologies: Angular, ApexCharts, Material UI

6. Focus FS (Industrial Site Operations)

A cloud workflow optimization and safety compliance engine for civil engineering firms. Developed high-reliability client-side handling utilizing IndexedDB for offline-first functionality on active job sites.

Technologies: Angular, MySQL, IndexedDB, JavaScript

EDUCATION & PERSONAL DETAILS

Education: Bachelor of Computer Applications (BCA)

University: Saurashtra University, Rajkot (Graduated)

Nationality: Indian

Date of Birth: May 13, 2000

Languages: English, Hindi, Gujarati

Marital Status: Married
